

## FIRST YEARS STUDENT VIDEO TAPE INFORMATION

Please send the following with your video tape:

1. A professional philosophy statement (please limit this to one page). This statement should include your beliefs regarding the role of:
  - early identification and intervention
  - hearing aid and cochlear implant technology
  - parents in the habilitation process
  - audition in the development of spoken language
2. A description of the program in which you are employed.
3. A copy of lesson/therapy plan with goals and strategies/techniques used during the videotaped session.
4. Pertinent information about the child (for example; chronological age, how long you have been seeing this child and family, other diagnosed disabilities, amplification history, age at identification, type and degree of hearing loss).
5. A copy of the child's most recent audiogram and cochlear implant report (if appropriate) on issues with regard to anatomy or mapping and levels or audiological report if the child is a hearing aid user.
6. A release form signed by the child's parent or guardian. Available at: <http://firstyears.org/mentorship/FY-release-form.doc>
